

PAEDIATRIC SERAVIT

DESCRIPTION

A powdered vitamin, mineral and trace element mixture on a carbohydrate base containing only trace amounts of sodium, potassium and chloride.

INDICATIONS

For the dietary management of infants and children on restricted therapeutic diets requiring vitamin, mineral and trace element supplementation.

ADMINISTRATION GUIDELINES

The dosage should be determined by a clinician or dietitian only and is dependent on the age, body weight and medical condition of the patient.

PREPARATION AND ADMINISTRATION

Depending on age and medical condition, follow the advice of your clinician or dietitian for hygienic preparation and handling of the product.

1. Weigh out the required amount of this product or use the scoop provided.
2. **For infants**, add the required amount of this product to the daily formula feed. Use immediately after reconstitution. **For children**, the product can be taken as a drink or paste. If taken as a paste, water or diluted drinks should be offered at the same time. Once reconstituted, refrigerate and consume within 24hrs.
3. The addition of flavourings to food(s) for infants below 6 months of age is not recommended.
4. Shake or stir immediately before use.

GENERAL PRECAUTIONS

Use under medical supervision. Not suitable for use as sole source of nutrition. Powdered product is not sterile. Product should be prepared immediately prior to feeding. Do not boil and do not use a microwave oven to heat.

STORAGE

Store in a cool, dry place. Always replace the container lid after use. Once opened, use within one month.

PACK SIZE

200g tin.

INGREDIENTS

Glucose syrup, calcium glycerophosphate, flavour enhancer (citric acid), choline bitartrate, magnesium acetate, calcium lactate, inositol, L-ascorbic acid, ferrous sulphate, zinc sulphate, DL- α -tocopheryl acetate, nicotinamide, calcium D-pantothenate, copper sulphate, riboflavin, pyridoxine hydrochloride, manganese sulphate, thiamin hydrochloride, retinyl acetate, potassium iodide, pteroylmonoglutamic acid, chromium chloride, sodium selenite, sodium molybdate, D-biotin, phytomenadione, cyanocobalamin, cholecalciferol.
