

31st of July 2023

IMPORTANT NOTICE: Scoop Change for Aptamil Allerpro Syneo Stage 1, 2 and 3.

Dear consumers,

This letter is to advise the change to the colour of the scoop in Aptamil Allerpro SYNEO Stages 1, 2 and 3.

| SKU Code | Material Description | Current Scoop | New Scoop |
|----------|-------------------------------------|-------------------------------|--------------------------------|
| 146914 | Aptamil Allerpro SYNEO Stage 1 900g | 4.6g short, dark-pink scoop | 4.6g short, light-yellow scoop |
| 146915 | Aptamil Allerpro SYNEO Stage 2 900g | 4.8g short, dark-yellow scoop | 4.8g short, dark-pink scoop |
| 146916 | Aptamil Allerpro SYNEO Stage 3 900g | 4.6g short, dark-pink scoop | 4.6g short, light-yellow scoop |

The weight of the powder per scoop and per tin has not changed. There have been no changes of Aptamil Allerpro Syneo recipe or nutrition values. Please advise patients to use the scoop that comes with the tin as it is the correct scoop for the milk powder in the can.

Why did it need to change?

It is Nutricia's mission to continually improve and develop our products to support the growth and development of babies. As such, we reviewed the scoops our products came with. While the old scoop was compliant, we further adjusted the scoop to be closer to the labelled weight value indicated.

You can expect tins of Aptamil Allerpro Syneo produced from the 28th of August 2023 onwards to contain the new scoop.

For any additional concerns or urgent queries regarding these products, you can contact your local Nutricia Representative or the Nutricia Careline team on any of the following:
