Locasol Formula	Presentation	Product code	Units per carton
Unflavoured	400g Tin	195413	6 x 400g

INDICATIONS

- For the dietary management of hypercalcemia where an extreme restriction of calcium and vitamin D is required. Can be used in infants as a sole source of nutrition and children and adults as supplementary nutrition.

IMPORTANT NOTICE

- Must be used under medical supervision.
- Not for parenteral use.
- Suitable for use as a sole source of nutrition.
- Powdered infant formula is not sterile.
- Infant formula should be prepared immediately prior to feeding and any remaining formula should be discarded if not used within one hour.
- Formula should not be warmed for longer than 15 minutes prior to feeding.
- Do not boil formula and do not use a microwave oven to prepare or warm formula.
- FOR INFANT FORMULA: The health of the infant depends on carefully following the directions for preparation and use. Incorrect preparation can make the baby ill.**
- Use only the scoop provided. Each level scoop (4.3g) of Locasol formula requires 30ml of water to yield the recommended feed concentration (12.9% w/v). When preparing any infant feed, please follow the guideline

PREPARATION AND ADMINISTRATION

- Recommended feed concentration is 12.9%w/v (i.e. 12.9g of Locasol made up to 100ml with water). A lower concentration may be required initially until tolerance is achieved.
- The dosage should be determined by a clinician or dietitian only and is dependent on the age, body weight and medical condition of the patient.

PREPARATION GUIDELINES

- Wash hands thoroughly and clean the preparation area. Sterilise bottles and teats (if using).
- Boil fresh water for five minutes and allow to cool for at least 30 minutes so that it feels warm to the wrist. Pour the required amount of water into a sterilised feeding bottle.
- Fill the scoop provided with infant formula and level off with a clean dry knife. Do not press the powder into the scoop. Only use the scoop provided.

- Add the prescribed number of scoops of infant formula to the water. Replace cap on the bottle and shake until powder is dissolved. Before feeding, ensure that the formula is at the correct temperature by placing a few drops on the wrist.
- Formula remaining in the bottle after one hour of feeding should be discarded. Formula must not be rewarmed during feeding.

STORAGE

- Store in a cool, dry place.
- Always replace the container lid after use.
- Once opened, use within one month.
