

CHOLESTEROL MODULE

DESCRIPTION

A powder containing cholesterol and carbohydrate.

INDICATIONS

For use in the dietary management of medical conditions requiring a source of exogenous cholesterol e.g. Smith-Lemli Opitz Syndrome. Suitable for infants, children and adults.

PREPARATION AND ADMINISTRATION

Intake should be based on serum levels of cholesterol and its metabolites. Most treatment protocols suggest a treatment dose of 100mg/kg/day. Dissolve the prescribed amount of Cholesterol Module to form a paste and add to drink or meal. One scoop contains approximately 5.9g of Cholesterol Module.

ADMINISTRATION GUIDELINES

The dosage should be determined by a clinician or dietitian only and is dependent on the age, body weight and medical condition of the patient.

GENERAL PRECAUTIONS

Use under medical supervision. Not for parenteral use. Not suitable for use as a sole source of nutrition.

STORAGE

Store in a cool, dry place. Always replace the container lid after use. Once opened, use within one month. Once reconstituted, store in a refrigerator and consume within 24 hours. Stir or shake immediately before serving.

PACK SIZE

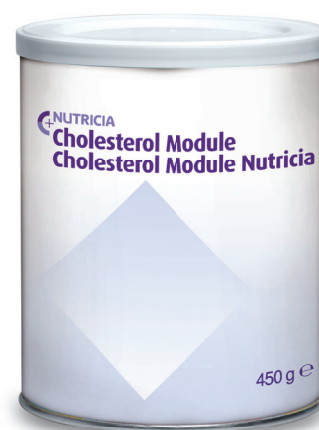

450g tin.

INGREDIENTS

Dried Glucose Syrup, Cholesterol.
