

## LOPROFIN EGG WHITE REPLACER

### Description

A powdered low protein egg white replacer.

### Indications

For the dietary management of inherited metabolic conditions and other conditions where a low protein diet is indicated.

### Preparation and administration

The recommended intake is dependent on the age, body weight, and medical condition of the patient. Can be used in cooking and baking as a substitute for egg whites to make cakes, pastries and other recipes where eggs are used. See pack for usage instructions.

### General precautions

Use under medical supervision. Not for parenteral use. Not suitable for use as a sole source of nutrition.

### Storage

Store in a cool, dry place out of direct sunlight. Once opened, store in an airtight container and use within six months.

### Pack size

100g tub.

### Ingredients

Hydroxypropyl Methyl Cellulose (E464).
